HEARST GETTING **MORE VOTES NOW**

First Sheet Examined Showed He Had Not Been Credited With 33.

PLENTY OF MINOR ERRORS.

Grand Jury Hands Down Six More Indictments for Election Frauds.

New York, Nov. 17.-Alderman Timothy P. Sullivan, Tammany leader of the Sixth assembly district, appeared before the board of canvassers today when it came time to examine the tally sheets of his district. He said that he felt sure no errors would be found; that he would fight all protests. The first sheet examined showed that Hearst ! had not been credited with 33 votes which were cast for him.

In the Third election district the returns of election night showed no vota for Hearst, and 33 for Crawford, the Prohibition candidate, but the tally sheet showed that these 33 votes were cast for Hearst, while the Prohibition andidate received none.

Minor errors, apparently clerical or resulting from the bunders of the election officers, were found in a large number of additional election districts. In one instance no return was made by the ballot clerk. The examination will

the continued on Monday.

The grand jury today handed down six more indictments in the election fraud cases which they have been investigating for the past week.
It was announced today by counsel for William R. Hearst that an applica-tion would be made to the supreme court either Monday or Tuesday of next

week for an order to have the ballot boxes opened and the votes counted. Frank Senior, chairman of the board inspectors of the Twelfth election district of the Nineteenth assembly disdeputies in connection with the case of Thomas McCabe, now under arrest, charged with having voted in the name of Thomas Corning. McCabe is charged with illegal voting and Senior with aiding and abetting.

Mr. Dillon, attorney for John Krup, was before the grand jury this afternoon and will be summoned again Monday. Later it was announced that a subpoena had been issued for Aldernoon before the summoned of the summoned that a subpoena had been issued for Aldernoon to the summon of th man J. F. Gaffney. Atty.-Gen. Mayer said that the question of who furnished the \$5,000 ball which secured Krup's re-lease yesterday is still under investiga-

AMERICAN MINING CONGRESS' BUSY DAY.

El Paso, Nov. 17.—Today was a busy one in the American Mining congress. Secy. Calbreath's report was read, amendments to bylaws adopted and much other work of importance was cleared up. Telegrams were sent to President Roosevelt expressing thanks for the interest he has shown in mines ad miners and to President Diaz for foreigners investing in Mexico have re-

The congress defeated a proposition increase membership dues from \$5 \$10, and held that all delegates, whether they had paid a membership fee or not, could vote on proposed amendments. The recommendation that the president should name a committee at each session of the congress to elect an executive committee was not favored, the delegates holding that the congress should have the privilege of elect-ing the committee. The proposition to have each state elect a member to the resolutions committee hereafter, instead of having a representative named by the president, was adopted. An in-clease from \$50 to \$100 was made in the dues for life membership. The executive committee was empowered to elect

one honorary member yearly.
Associate members, not actual miners, will be admitted to membership hereafter upon payment of the membership fee and \$1 yearly. Control of the association is to be vested in a board of directors, consisting of nine mem-bers, three for one year and three for two years and three for three years in first election and three to be elected annually after that date. Tomorrow the election of officers will be held. The next place of meeting will be announced by the directors Saturday, and will probably be Phoenix, Ariz., as the convention has already expressed itself in favor of that city.

The committee judging the rock-drilling contest tonight filed an amendment to their decision this morning, which was rendered in favor of Cham-berlain and Make of Mexico. Make is declared to have struck several blows after the call of time. The men are credited with the same record as that made in yesterday's drilling by the Page brothers, 39 13-16 inches. Tomorrow the two leading teams will drill for the championship, the prize for which is a purse of \$1,000, and the El Paso

New York, Nov. 18 .- Another earthquate occurred yesterday at Calabria Mount Pizzo and Leone says a cable dispatch to the Herald from Naples. It lasted about eight seconds. The population was panic stricken and many houses were badly damaged.

Meat Eating Nations Are the Leaders in Every Branch or Human Achievements.

The ruling nations of the world are meat eaters and history records that they always have been.

Vegetarians and food cranks may explain this in any way they choose, but the facts remain that the Americans, English. French, Russians and tiermans are meat-cating nations, and they are also the most energetic and most progressive.

The principal food of the heroic Boer soldier, known as Biltong, is a sort of dried beef, affording a great deal of nourishment in a highly concentrated form.

dried beef, affording a great deal of nourishment in a highly concentrated form.

The weak races of people are the rice-cating Chinese, Hindoos, and Siamese, regarded since the dawn of history as non-progressive, superstitious and inferior physically and mentally to the meat-cating nations who dominate them.

The structure of the teeth plainly indicates that human beings should subsist upon a variety of food, meat, fruit and grains, and it is unhygienic to confine one's diet to any one of those classes to the exclusion of another.

Meat is the most cencentrated and most easily digested of foods, but our manner of living is often so unnatural that the digestive organs refuse to properly digest meat, eggs and similar nutritious and wholesome food, but it is not because such food is unwholesome, but the real reason is that the stomach lacks, from disease or weakness, some necessary digestive element; hence arising indigestion and, later on, chronic dyspepsa.

Nervous people should eat plenty of meat, convalescents should make meat the principal food, hard-working people have to do so, and brain-workers and office men should eat, not so much meat, but at least once a day, and to insure its perfect digestion one or two of Stuart's Dyspepsia Tablets should he taken after each meal, because they supply the peptones, diastase and fruit acids, lacking in every case of stomach gas and acidity are only different names for indigestion. Nervous dyspepsia, catarrh of stomach, gastritis, sour stomach, gas and acidity are only different names for indigestion, the failure to digest wholesome food, and the use of Stuart's Dyspepsia Tablets stomach corest and recover its natural tone and vigor.

Stuart's Dyspepsia Tablets is the real boushed medicales it is as safe and and one of the safe and

Stuart's Dyspepsia Tablets is the real household medicine; it is as safe and pleasant for the stomach ache of the baby as it is for the imperfect digestion of its grand sire. of its grand sire.

They are not a cathartic, but a digestive, and no pill habit can ever follow their use; the quiy habit Stuart's Tables induce is the habit of good digestion and consequently good health.

FAVORS WOMAN SUFFERAGE.

Federation of Labor Adopts Resolution to that Effect.

Pittsburg, Nov. 17 .- The morning session of the American Federation of La-bor convention lasted only half an hour One of the important actions today was the adoption by the convention of a resolution favoring women's suffrage as a necessary step toward raising them to a level with men in securing a proper scale of wages. The conven-tion is making every effort to organize the women of all trades, and a number of resolutions adopted bear on this sub-

SENATOR GALLINGER FAVORS SHIP SUBSIDIES.

New York, Nov. 17 .- At a banquet tonight at Delmonico's, 150 members of the Society of Naval Architects were present and listened to addresses by Senators Jacob H. Gallinger of New Hampshire, Rear Admiral R. D. Evans and others. and others.

Admiral Evans said in part: I am proud today to command one middle west wherever that is, go on building ships," he continued, turning toward Senator Gallinger, "and build them 18,000 tons. Do not be extravagent, but give us the tools that we must have when the time comes. You press the button and we will try to do the rest. "Our navy is very good, what there

is of it, but there is not enough of it. Senator Gallinger made an address it favor of the ship subsidy bill and the rehabilitation of the American mer-chant marine. He said, in part:

"About the only craft that carry the American flag is a battleship or a yacht belonging to a millionaire. President Roosevelt said that something must be done to rehabilitate the merchant ser-vice, and Congress appointed a committee, and I am especially glad to speak of the work of that committee. We need sailors even for little ships. The Frye-Hanna bill provides for a subsidy of \$5 per ton for vessels engaged in for-eign trades for 12 months. In return these vessels may be taken for the de-fense of the United States. One of the big metropolitan dailies has recently said such a bill would put a tax bur-den of from \$15,000,000 to \$20,000,000 on the people. Gentlemen, the tonnage dues and the carrying of the mails, these two items alone, would make the cost not in excess of \$1,000,000 the first

"Shipping is the only industry that is unprotected, and every other nation is granting subsidies to its merchant magranting subsidies to its merchant marrine. It is the duty of the government to extend its protection from the land to the sea. There is a necessity for providing means to take advantage of your opportunities in the orient for there three-litths of the population of the globe are to be supplied in the near future by the more civilized nations. The American flag must float in the orient."

FIRST A COLD THEN CATARRH

A cold in the head is a common ailment, THEN CONSUMPTION but it rarely ever stops there. It often grows stubborn and protracted, the mucous membranes, or inner lining of the body, become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and soon produces that disgusting disease, Catarrh. Then follow the unpleasant symp-

toms of "hawking and spitting," ringing noises in the ears, headache, ringing noises in the ears, headache, poor appetite, mucus dropping back into the throat, and a feeling of general debility. Every day the blood becomes more heavily loaded with these poisonous secretions, and if the trouble is allowed to run on, the lungs become diseased from the constant.

I had Catarrh for twelve years and suffered agony with headaches, nose stopped up, appetite poor, felt tired and run-down and unfit for work. I read of S.S. and commenced its use, and after taking eleven bottles I found myself a well man. I have never had any return of the disease and I consider S. S. the best treatment in the world for Catarrh.

No. 1304 Main St., Evansville, Ind. become diseased from the constant

passage of poisoned blood through them, and then Catarrh terminates in the most dreaded and fatal of all diseases, Consumption. The only way to get rid of Catarrh permanently is to cleanse the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all

Catarrhal matter and poisons, and effectually checks the progress of this dangerous and farreaching disease. S. S. S. keeps the blood in PURLLY VEGETABLE. perfect order so that Catarrh cannot remain; and

as this pure, healthy blood goes to every nook and corner of the body, the entire system is strengthened and invigorated, and the symptoms all pass away. Book with information about Catarrh and med-THE SWIFT SPECIFIC CO., ATLANTA, GA.

MONEY FLURRY WITHOUT EFFECT

Reports Generally Indicate Increase in the Volume of Business.

COLLECTIONS RATHER SLOW.

Wholesale Holiday Trade Well Under Way-Traffic Conditions Better.

New York, Nov. 17 .- R. G. Dun & Co's Weekly Review tomorrow will say: "A temporary flurry in the money market had little deleterious effect in commercial channels, most reports indicating a further increase in the volume of business. Orders came forward freely for distant delivery and buyers experience much difficulty in making purchases for quick shipment. Wholesals trade in holiday goods is now well under way, and retail distribution of seasonable merchandise responds to the generally lower temperature.

"There is some delay in collections, but the reports indicate that payments are prompt in spite of the higher money rates. Manufacturing plants have scarcely a drawback except scarcity of labor in a few instances and small strikes that interrupt structural work to some extent. Note of these influenc-es affect any considerable proportion of the capacity and there are many new high records of production. "Traffic conditions have improved and railway earnings for the first week

of November were 4.9 per cent larger than in the corresponding time last year, while the official statement foreign commerce for the month of October showed a very large increase in the aggregate, and at this port for the last week exports gained \$3,9333,082, in comparison with 1904, while imports decreasepd \$1,160,074. continue firm but trading is

restricted by the light offerings of packers who are sold far ahead, rather than any lack of demand. Further advances curred in foreign dry hides.
"Fallures this week numbered 240 in the United States, against 217 last year, and 42 in Canada, compared with 27 a year ago,"

CHRISTIAN MINISTERS.

Baron Hirschberg Condemns Their Great Apathy.

Chicago, Nov. 18.—The apathy of Christian ministers and churchmen in

Christian ministers and churchmen in the face of the massacre of Russian Jews was condemned by Baron Hirschberg to the members of the North Side Jewish congregation.

"When the very stones of the streets cry out for justice what have our preachers of Christianity to say?" he asked. "We have been waiting patiently for some strong and manly sentiment from the Christian world, knowing full well that such an expression would appeal more strongly to the of the finest fleets in the world. This fleet of mine has about half the officers that it would need in war, but we are Russian government than all the prayers and petitions of Jewish organzations and deputations, but we have waited in vain.

"If ever there was a challenge from God to Christianity that it justify and vindicate itself as the religion of jus-tice and humanity, it is in those scenes and the prayers of a persecuted people for succor and sympathy. Thus far the challenge has remained unan-

With the exceptions of the vigorous editorials of the American press, the philanthropy of a Carnegle and the half-hearted utterances of a handful of clergymen, the Christian world has been painfully and woefully silent. It is not, however, in a spirit of resent-ment that I speak tonight, but of sor-row and regret that there is not for the Jew, as there was for the negro, a garrison to plead his cause before the bar of justice and in the parliament of

GERMAN NAVAL PROGRAM.

Berlin, Nov. 17.-The federal council today adopted the navy increase bill. which will be laid before the reichstag at its forthcoming session. The bill provides for the increase for the present building plans by six large cruisers, of which five are for the so-called foreign fleet, and also for the raising of the number of torpedo divisions from 16 to 24.5

The cost of each cruiser will be \$6,-750,000. The entire additional cost up to the year 1916 will be \$41,250,000. published. In the abstract it provides published. In the abstract is provides for an increase in the size and arma-ment of the vessels hitherto voted under the old fleet law, making the cost of the battleships \$9,000,000 instead of \$6,250,000 The report accompanying the bills says that the regular naval budget raises from \$58,250,000 in 1905 to \$52,000,000 in 1907. The extra vessels cause an increase of 136 officers and 5,363 non-commissioned officers and seamen. The report explains the increased propor-tions and cost of the ships already voted as being due to the lessons taught by the Russo-Japanese war. The new torpedo boats for the same reasons will also be large. The appropriation bill also provides \$1,250,000 to continue experimenting

with submarine boats, etc. CLOSER UNITY OF CHURCHES.

New York, Nov. 17 .- The closer unity of churches was the subject of today's session of the Interchurch conference on Federation, Several speakers said that the easiest first step toward such unity lay in co-operation in foreign and hom

missionary work. The appeal to Russians to be merciful to the Jews, which was drafted yesterday by Rev. Dr. Washington Gladden, was adopted,

At the evening session "Our Faith in Christ, and Christ the Center of Christianity" was the subject of Rev. William H. P. Faunce (Baptist), president of Brown university, Providence, R. I. He reminded those present of the controversy that had arisen over the exference by an allusion to ten of the most famous of that body, and said that he himself never wished to be a candidate for any heaven from which William Ellery Channing and James Martineau were excluded.

WHALING FLEET FAST BOUND.

Seattle, Wash., Nov. 8.—Capt. Francis Tuttle, formerly in command of the cis Tuttle, formerly in command of the revenue cutter Bear, states that from what he has learned from Capt. Bodfish of the whaler Willia: Bayllss, there is absolutely no chance for the whaling fleet to escape. In his opinion the ships will be crushed in the ice. The crews will have to desert the ships and make for the McKenzle river. The fleet is reported to be 60 miles from Banksland, which is 500 miles east of the McKenzle. He does not think a relief expedition could aid them in any way.

PARALYSIS CURED.

MR. JOHN KENNEY'S CONDITION WAS THOUGHT HOPELESS.

But the Disease Yielded to Dr. Williams Pink Pills-Some Details Given by Himself.

Mr. Kenney has actually escaped from the paralytic's fate to which he seemed a short time ago hopelessly doomed. The surprising report has been fully

verified and some important details secured in a personal interview with the recent sufferer. "The doctor," said Mr. Kenney, "told me that if I wanted to live any length of time I would have to give up work altogether, and he told my friends that the paralysis which had begun would in time involve my whole body."

"Just how were you afflicted at this time?" Mr. Kenney was asked.
"Well, I had first hot, and then cold and clammy feelings, and at times my body felt as if needles were being stuck into it. These sensation were followed by terrible pains, and again I would have no feeling at all, but a numbness would come over me, and I would not be able to move. The most agonizing tortures came from headaches and a pain in the region of my spine.

"Night after night I could not get my natural sleep and my system was wrecked by the strain of terturing pains and the effect of the opiates I was forced to take to induce sleep. As I look back on the terrible suffering I endured during this period I often wonder how I retained my reason through it

induced to try Dr. Williams' Pink Pills for Pale People. The very first box seemed to help me, and seven boxes made me entirely well. There can be no doubt about the thoroughness of my cure, for I have worked steadily ever since and that is nearly four years." Mr. Kenney is at present employed by the Merrimac Hat Compay and reat 101 Aubin street, Amesbury, The remedy which he used with such satisfactory results, is sold by all druggists, or direct by the Dr. Williams Medicine Company, Schenectady, N. Y.
